About us > Milestone

**March
2014**

Founded by three 3D Printing geeks, started from 3DP & 3D scanning

**March
2016**

Expanded facilities with over 80+ printers, 10+ scanners

**May
2019**

Expanded business to CNC, Injection, Vacuum casting, Die casting, Sheet metal...

**Jan.
2022**

300+ equipment. Served 87 countries, 30K+ parts made per month.

----->
We win the trust from...

About us > Our Advantages

A broad range of capabilities

Today, we have 300+ equipment and 20+ surface finishes capabilities allow our customer to make parts at one-stop.

Fast and Affordable

Each order will be handled by an exclusive sales representative.

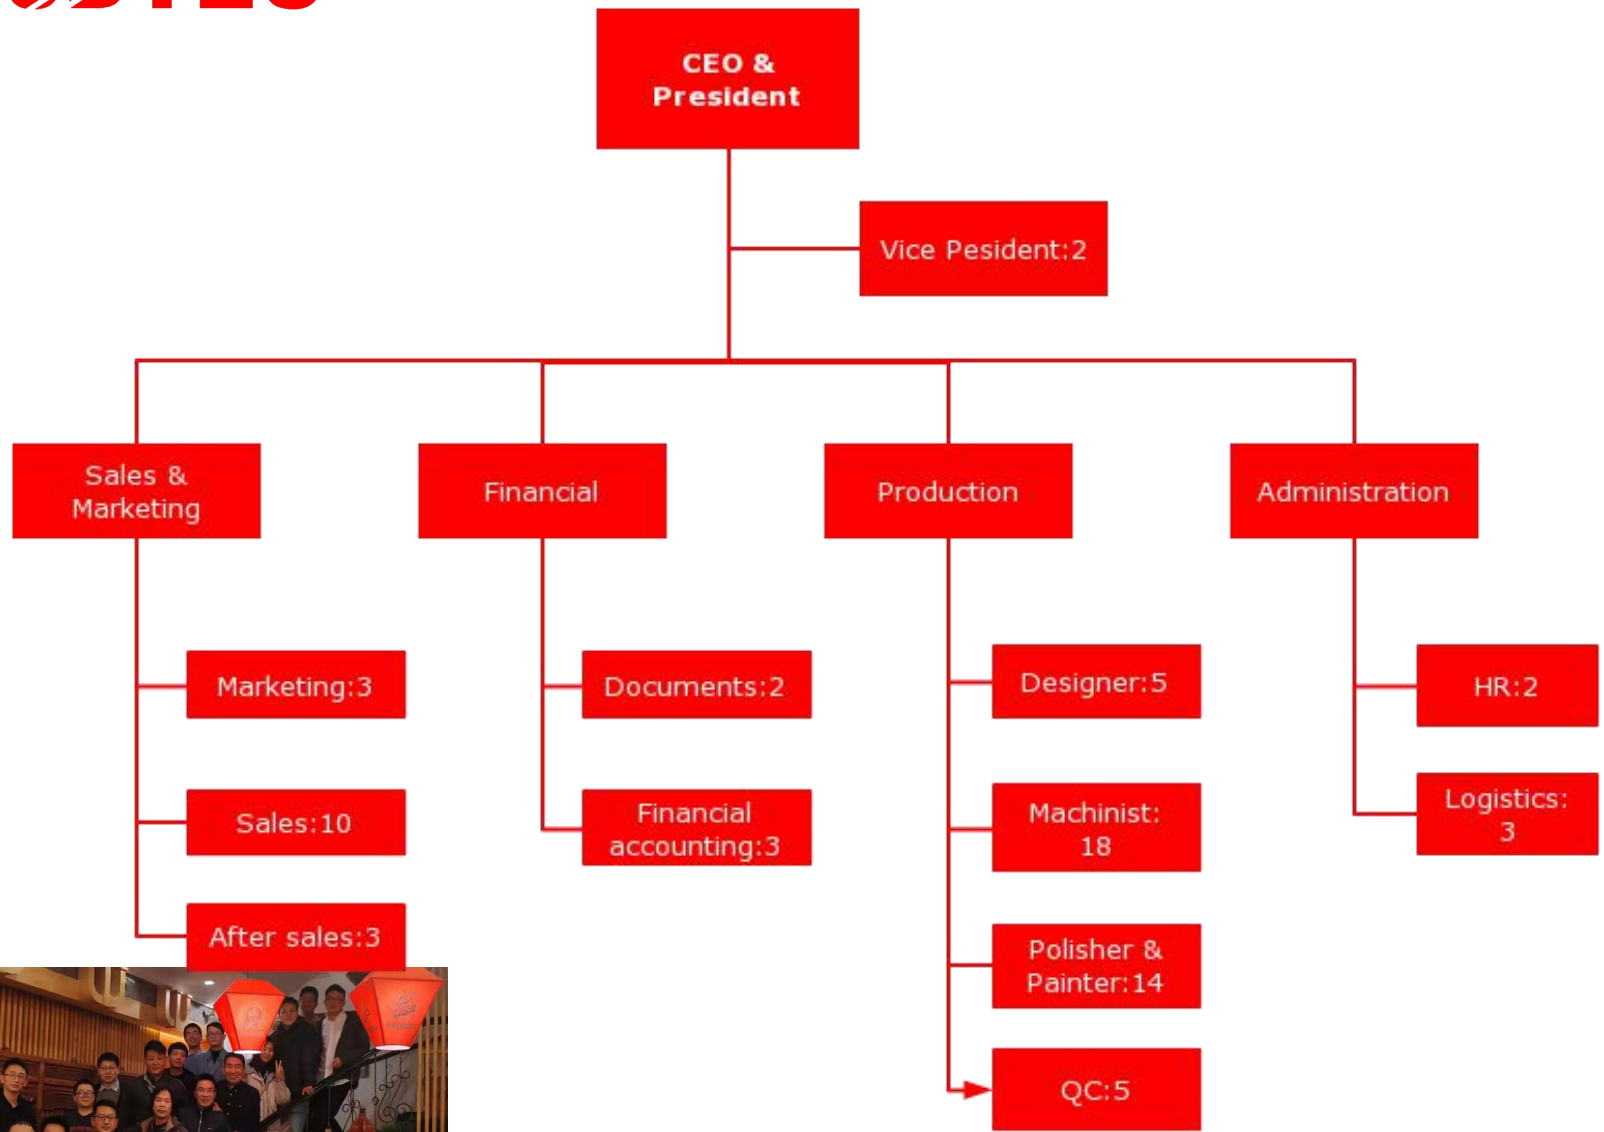

We control the cost in every process to offer our customer affordable price

Engineering Support

More than making parts, we provide value. Our designers and machinist will assist our customers through all the workflow.

Quality Assurance

Quality is the first in IN3DTEC. From the raw material to the last QC process, all with certificated assurance.

We are young but full of energy

Service > What can we do?

3D Scanning & Reverse Engineering

3D Printing

CNC Machining

Injection Molding

Vacuum Casting

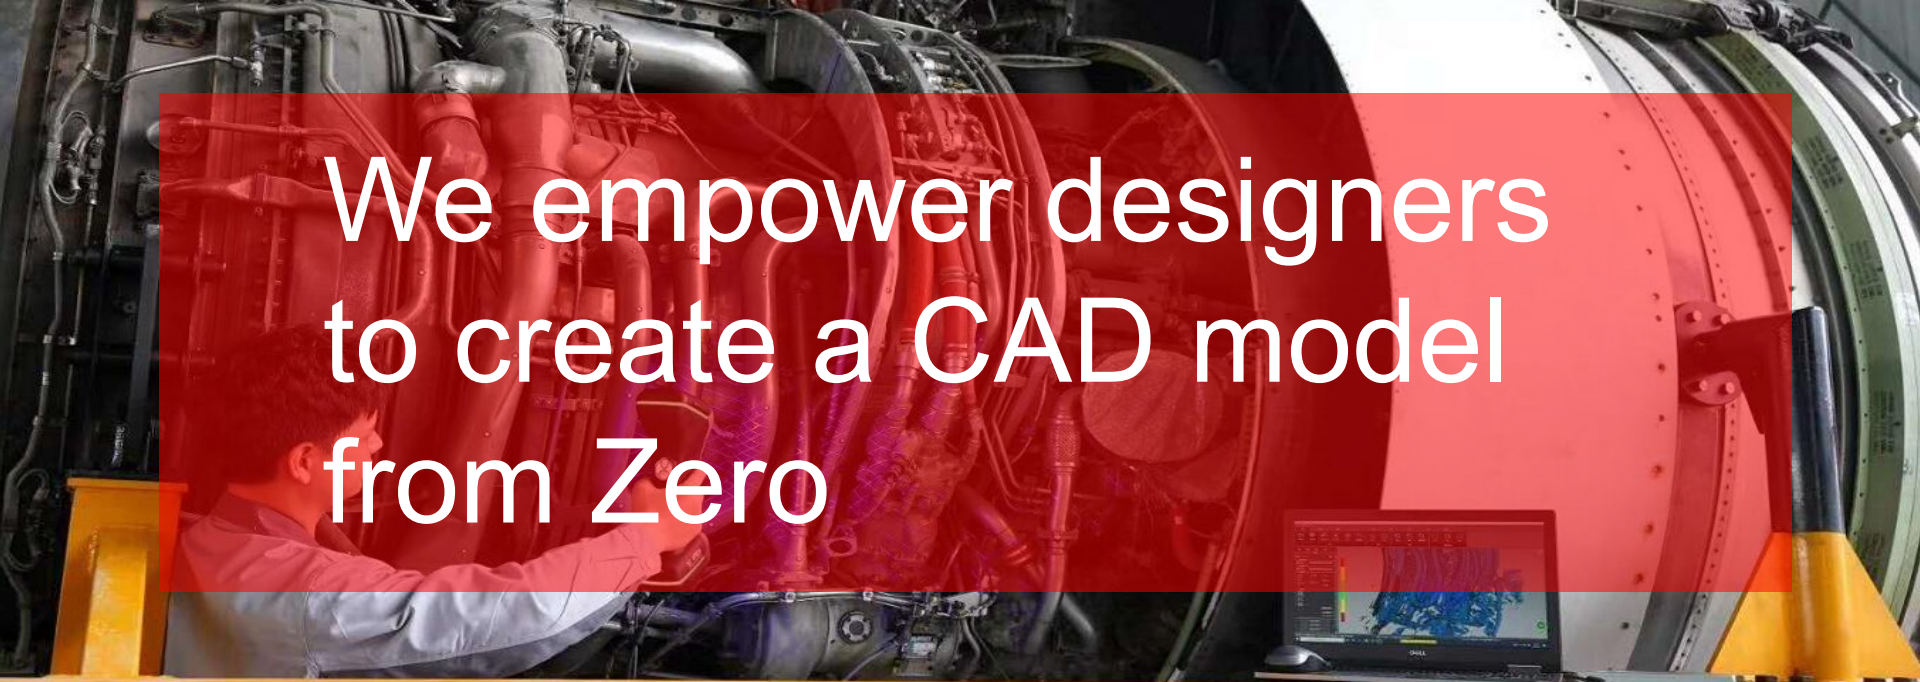

Surface Finishes

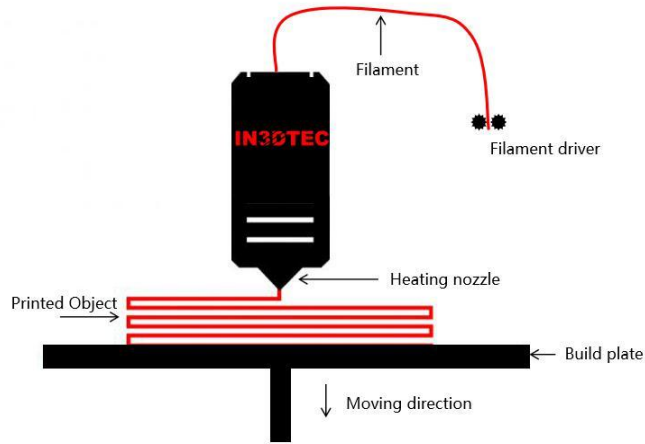

Service > 3D Scanning & Reverse Engineering

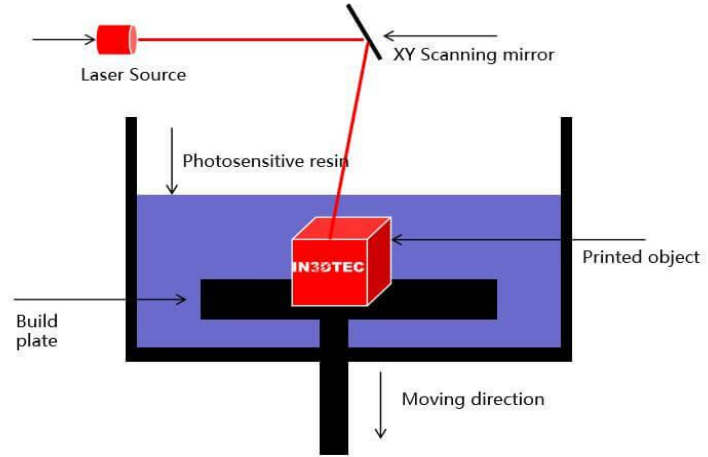

We empower designers
to create a CAD model
from Zero

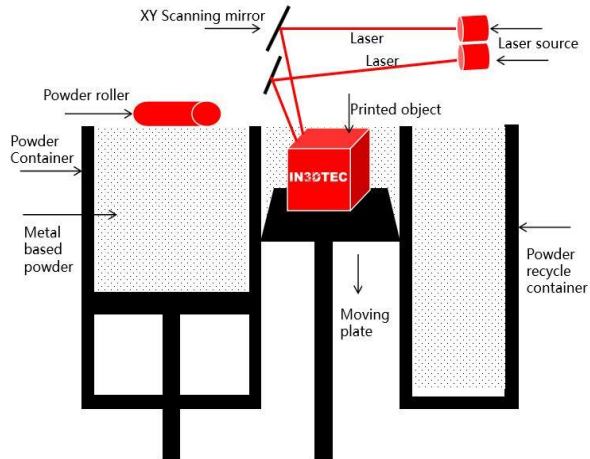

Service > 3D Printing > Technologies

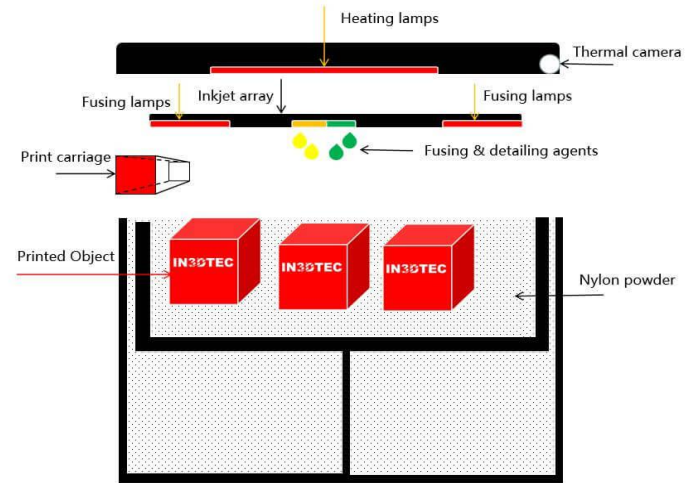

Fused Deposition Modeling

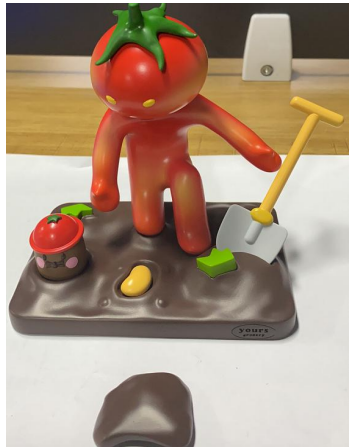

Stereolithography

Laser Sintering, Laser Melting

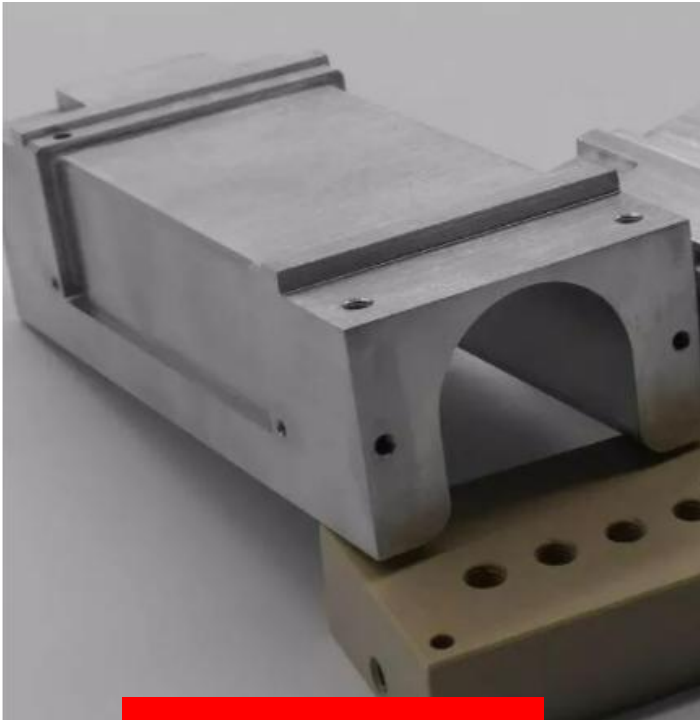

Multi Jet Fusion

Service> CNC Machining

CNC Milling

CNC Turning

- ✓ EDM
- ✓ Laser engraving
- ✓ Soldering
- ✓ Welding

Metals

Aluminum
Brass
Copper
Low-carbon steel
Steel Alloy
Stainless Steel
Titanium
Magnesium Alloy
Zinc Alloy

20+ Metals

Plastics

PEEK
PEI
POM
PP
PPSU
UHMW
ACRYLIC
PC
ABS
PVC

25+ plastics

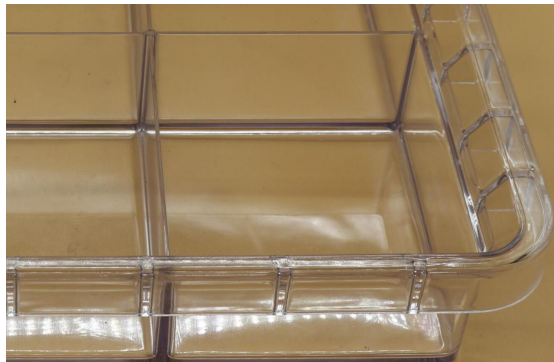

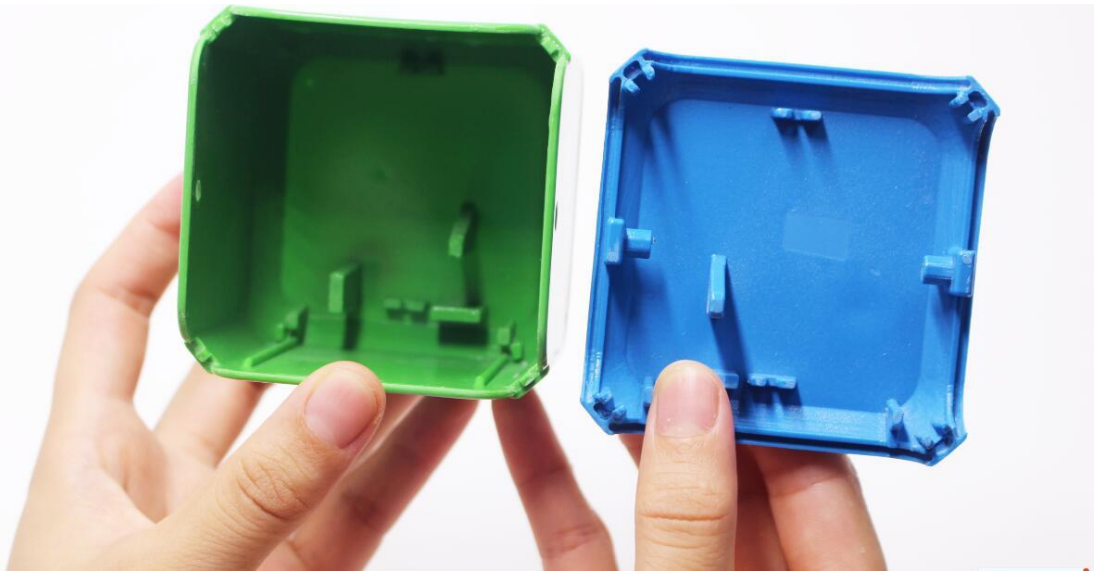

Over molding

Insert Molding

Rapid Tooling

16+Materials

ABS, PC, PC-ABS, PP, HDPE,
PA, PA+GF, TPE, TPU...

PU Casting

Rapid Plastics Casting

Materials:
Silicone (Simple parts)
Acrylic-like

Plating

Painting & Dyeing

Sandblasting, Bead blasting

Vapor chemical smoothing

Anodizing, Powder Coating

Mirror Polishing

✓ 15+ surface finishes available

Our Customers

Mercedes-Benz

Thank you!

We empower designers and engineers to create excellent products
